Experience

Front-end developer - Eurelis (current position - since 07/2014)

At Eurelis I'm led to work on multiple projects with several technologies. I've worked on some Magento, Drupal or Symfony projects but also on projects only based on front end technologies. I've had 2 formations on AngularJS at Eurelis which allowed me to develop an application with this framework. Since June 2015 I assume the lead developer role on a project on which I've been working since January 2015.

Back & Front developer (Internship) - MeltyGroup (from 01/10/2013 to 30/06/2014)

Meltygroup is the first online media group for young people. (more than 15 millions readers by month)

Front-end and Back-end development, Maintenance of the websites of the group.

Administration and statistics platform development for editorial teams on their homemade framework called "Shape".

Technologies: HTML, CSS, JS/jQuery, PHP, MySQL, Responsive Web design.

Back & Front developer (Internship) - Soonvibes (from 18/02/2013 to 17/05/2013)

Soonvibes is a young Startup specialised in electronic music. It allows DJs to post their tracks on the website and receive feedbacks.

I was in charge of the Front-end and Back-end development and I helped develop the V1 of the website soonvibes.com and also a generic ajax pagination module.

Technologies: HTML, CSS, JS, PHP, MySQL, SVN, Zend Framework.

Web Developer (freelance) (from 10/2012 to 10/2013)

Front-End Developer at Yakota

Technologies : Zend Framework, JS, jQuery, HTML, CSS

Web technologies Teaching Assistant - Sup'Internet (since 10/2012)

Teaching Assistant for Sup'Internet students in first and second year. Helping them with HTML, CSS, JS and PHP.

Web Developer (Internship) - Yakota (from 01/06/2012 to 30/09/2012)

Yakota is a company specialised in online jewellery selling (diamond).

Web development, Maintenance of the websites of the group. Integration of designs made with photoshop. Newsletter development.

Technologies: HTML, CSS, JS, Zend Framework.
